A minimum of 5 trees each variety on previous listed trees.

50 trees of one species = 10% discount on that species.

100 trees of one species = 20% discount on that species.

We are now offering a few varieties of trees grown in 5" fabric bag. The advantage to these trees is the bag creates root branching inside the ball, thus building a superior root system virtually eliminating "transplant shock" and our experience has been near 100% survival! No minimums on fabric bag trees. All trees below grown in 5" Knit Fabric Bag. 5+ prices are per species.
